**Dulles Corridor Metrorail Project  
PHASE 2** 33

## Broad Run Bridge Construction Begins Along the Dulles Greenway

Starting on or about Monday, November 17, Dulles Corridor Metrorail Project crews will begin building an at-grade bridge in the median of the Dulles Greenway near mile marker 10.5, just west of Old Ox Road (Route 606). The bridge will support the Silver Line guideway as it crosses over Broad Run on the way to the Route 772 Station in Ashburn. Construction of the bridge is expected to continue into late 2015.

Drivers will experience intermittent shoulder and lane closures along the median of the DIAAH as the work progresses in stages. Drivers should be attentive to signage and barricades and remain alert as large, slow-moving vehicles may be exiting and entering the highway at various times throughout the day.

A 24/7 emergency hotline is available for Dulles Corridor Metrorail Project construction-related issues:  
844-385-7245. For general project information: [www.dullesmetro.com](http://www.dullesmetro.com) or 703-572-0506.
