

TABLE OF CONTENTS

VOLUME I

S.0 EXECUTIVE SUMMARY S-1

1.0 PURPOSE AND NEED FOR THE PROPOSED ACTION 1-1

1.1 OVERVIEW 1-2

1.2 PROPOSED ACTION 1-5

1.3 PLANNING CONTEXT 1-10

1.3.1 Previous Studies and Plans 1-10

1.3.2 Future Plans 1-12

1.3.3 Related Studies 1-15

1.3.4 Environmental Review and Project Development Process 1-16

1.4 DESCRIPTION OF THE REGION AND CORRIDOR 1-18

1.4.1 Region and Corridor Boundaries 1-21

1.4.2 Corridor Activity Centers 1-21

1.4.3 Corridor Transportation System 1-29

1.4.4 Travel Patterns 1-33

1.5 NEED FOR IMPROVEMENTS 1-37

1.5.1 Anticipated Population and Employment Growth 1-37

1.5.2 Future Land Use and Development Plans 1-40

1.5.3 Increased Travel Demand 1-40

1.5.4 Limitations of the Existing Roadway System 1-41

1.5.5 Limitations of the Existing Transit System 1-42

1.5.6 Air Quality 1-43

1.6 GOALS AND OBJECTIVES 1-43

2.0 ALTERNATIVES CONSIDERED 2-1

2.1 ALTERNATIVES PREVIOUSLY CONSIDERED 2-1

2.2 DRAFT EIS ALTERNATIVES AND RECOMMENDATIONS 2-6

2.3 SUPPLEMENTAL DRAFT EIS ALTERNATIVES AND RECOMMENDATIONS ... 2-8

2.4 FINAL EIS ALTERNATIVES 2-10

2.4.1 No Build Alternative 2-10

2.4.2 Locally Preferred Alternative 2-22

2.4.3 Comparative Evaluation of Alternatives 2-47

3.0 SOCIAL EFFECTS.....3-1

3.1 LAND USE AND SOCIO-ECONOMICS 3-2

 3.1.1 Methodology 3-2

 3.1.2 Existing Conditions and Future Projections 3-3

 3.1.3 Long-Term Effects 3-15

 3.1.4 Construction Effects 3-19

 3.1.5 Mitigation 3-20

3.2 NEIGHBORHOOD, COMMUNITY SERVICES AND COMMUNITY COHESION IMPACTS..... 3-20

 3.2.1 Methodology 3-20

 3.2.2 Existing Conditions 3-22

 3.2.3 Long-Term Effects 3-33

 3.2.4 Construction Effects 3-39

 3.2.5 Mitigation 3-39

3.3 PROPERTY ACQUISITION AND DISPLACEMENT 3-39

 3.3.1 Legal and Regulatory Context..... 3-40

 3.3.2 Methodology 3-40

 3.3.3 Long-Term Effects..... 3-40

 3.3.4 Construction Effects 3-42

 3.3.5 Mitigation 3-43

3.4 VISUAL AND AESTHETIC CONDITIONS..... 3-43

 3.4.1 Methodology 3-43

 3.4.2 Existing Conditions 3-43

 3.4.3 Long-Term Effects..... 3-60

 3.4.4 Construction Effects 3-63

 3.4.5 Mitigation 3-64

3.5 CULTURAL RESOURCES..... 3-64

 3.5.1 Legal and Regulatory Context..... 3-64

 3.5.2 Methodology 3-65

 3.5.3 Existing Conditions 3-66

 3.5.4 Long-Term Effects..... 3-73

 3.5.5 Construction Effects 3-77

 3.5.6 Mitigation 3-77

3.6 PARKLANDS AND RECREATION AREAS 3-78

 3.6.1 Legal and Regulatory Context..... 3-78

 3.6.2 Methodology 3-78

 3.6.3 Existing Conditions..... 3-79

3.6.4 Long-Term Effects 3-85

3.6.5 Construction Effects 3-87

3.6.6 Mitigation 3-87

3.7 SAFETY AND SECURITY 3-88

3.7.1 Legal and Regulatory Context..... 3-88

3.7.2 Methodology 3-88

3.7.3 Existing Conditions..... 3-88

3.7.4 Long-Term Effects..... 3-91

3.7.5 Construction Effects 3-93

3.7.6 Mitigation 3-94

3.8 ENVIRONMENTAL JUSTICE..... 3-94

3.8.1 Legal and Regulatory Context..... 3-94

3.8.2 Methodology 3-94

3.8.3 Existing Conditions..... 3-95

3.8.4 Long-Term Effects..... 3-99

3.8.5 Construction Effects 3-101

3.8.6 Mitigation 3-102

3.8.7 Public Involvement Outreach 3-102

4.0 ENVIRONMENTAL EFFECTS 4-1

4.1 GEOLOGIC RESOURCES 4-2

4.1.1 Legal and Regulatory Context..... 4-2

4.1.2 Methodology 4-3

4.1.3 Existing Conditions..... 4-3

4.1.4 Long-Term Effects..... 4-15

4.1.5 Construction Effects 4-16

4.1.6 Mitigation 4-17

4.2 WATER RESOURCES..... 4-17

4.2.1 Legal and Regulatory Context..... 4-17

4.2.2 Methodology 4-18

4.2.3 Existing Conditions..... 4-19

4.2.4 Long-Term Effects..... 4-47

4.2.5 Construction Effects 4-53

4.2.6 Mitigation 4-54

4.3 AQUATIC BIOTA AND HABITAT 4-59

4.3.1 Legal and Regulatory Context..... 4-59

4.3.2 Methodology 4-60

4.3.3 Existing Conditions..... 4-60

4.3.4 Long-Term Effects..... 4-62

TABLE OF CONTENTS

4.3.5 Construction Effects 4-63

4.3.6 Mitigation 4-63

4.4 TERRESTRIAL BIOTA AND HABITAT 4-63

4.4.1 Legal and Regulatory Context..... 4-64

4.4.2 Methodology 4-64

4.4.3 Existing Conditions..... 4-64

4.4.4 Long-Term Effects..... 4-66

4.4.5 Construction Effects 4-67

4.4.6 Mitigation 4-68

4.5 RARE, THREATENED, AND ENDANGERED SPECIES 4-68

4.5.1 Legal and Regulatory Context..... 4-68

4.5.2 Methodology 4-68

4.5.3 Existing Conditions..... 4-69

4.5.4 Long-Term Effects..... 4-70

4.5.5 Construction Effects 4-73

4.5.6 Mitigation 4-73

4.6 AIR QUALITY 4-74

4.6.1 Legal and Regulatory Context..... 4-74

4.6.2 Methodology 4-76

4.6.3 Existing Conditions..... 4-81

4.6.4 Long-Term Effects..... 4-82

4.6.5 Construction Effects 4-87

4.6.6 Mitigation 4-87

4.7 NOISE 4-88

4.7.1 Human Perception of Noise 4-88

4.7.2 Evaluation Criteria..... 4-88

4.7.3 Methodology 4-94

4.7.4 Existing Conditions..... 4-94

4.7.5 Long-Term Effects..... 4-97

4.7.6 Construction Effects 4-103

4.7.7 Mitigation 4-104

4.8 VIBRATION..... 4-105

4.8.1 Human Perception of Vibration 4-111

4.8.2 Evaluation Criteria..... 4-111

4.8.3 Methodology 4-116

4.8.4 Existing Conditions..... 4-117

4.8.5 Long-Term Effects..... 4-117

4.8.6 Construction Effects 4-124

4.8.7 Mitigation 4-125

4.9 HAZARDOUS AND CONTAMINATED MATERIALS 4-125

 4.9.1 Methodology 4-125

 4.9.2 Existing Conditions 4-127

 4.9.3 Long-Term Effects 4-131

 4.9.4 Construction Effects 4-133

 4.9.5 Mitigation 4-133

4.10 ENERGY 4-134

 4.10.1 Existing Conditions 4-134

 4.10.2 Long-Term Effects 4-134

 4.10.3 Construction Effects 4-135

 4.10.4 Mitigation 4-136

5.0 ECONOMIC EFFECTS 5-1

5.1 ECONOMIC CONDITIONS 5-1

 5.1.1 Output, Earnings, and Employment Effects from Capital Expenditures 5-3

 5.1.2 Output, Earnings, and Employment Effects from Operations and Maintenance Expenditures 5-8

 5.1.3 Tax Revenue Effects 5-10

5.2 STATION AREA DEVELOPMENT 5-12

 5.2.1 Station Area Planning and Design Guidelines 5-12

 5.2.2 Station Area Characteristics and Development Potential 5-16

 5.2.3 Mitigation 5-21

5.3 DEVELOPMENT EFFECTS 5-21

 5.3.1 Corridor Development Projections 5-21

 5.3.2 Joint Development Opportunities 5-23

6.0 TRANSPORTATION EFFECTS 6-1

6.1 TRANSIT EFFECTS 6-1

 6.1.1 Methodology 6-2

 6.1.2 Existing and Planned Transit System 6-3

 6.1.3 Long-Term Effects 6-8

 6.1.4 Construction Effects 6-19

 6.1.5 Mitigation 6-20

6.2 EFFECTS ON ROADWAYS 6-20

 6.2.1 Methodology 6-20

 6.2.2 Existing and Planned Roadway System 6-20

 6.2.3 Long-Term Effects 6-24

 6.2.4 Mitigation 6-35

6.3 EFFECTS ON OTHER TRANSPORTATION FACILITIES AND SERVICES 6-37

 6.3.1 Existing and Planned Facilities and Services 6-37

 6.3.2 Long-Term Effects 6-39

 6.3.3 Construction Effects 6-41

 6.3.4 Mitigation 6-41

7.0 SECTION 4(f) EVALUATION 7-1

7.1 LEGAL AND REGULATORY CONTEXT 7-1

 7.1.1 Section 4(f) of the U.S. Department of Transportation Act 7-1

 7.1.2 Section 6(f) of the Land and Water Conservation Fund Act 7-2

7.2 PROPOSED ACTION 7-2

7.3 EXISTING SECTION 4(f)/6(f) RESOURCES 7-5

 7.3.1 Officially Designated Public Parklands, Recreation Areas, Wildlife and Waterfowl Refuges Identified 7-5

 7.3.2 Archaeological Resources 7-12

 7.3.3 Historic Architectural Resources 7-12

7.4 USE OF SECTION 4(f)/6(f) RESOURCES 7-15

 7.4.1 No Build Alternative 7-15

 7.4.2 Wiehle Avenue Extension 7-15

 7.4.3 Full LPA 7-17

7.5 AVOIDANCE ALTERNATIVES 7-23

7.6 MEASURES TO MINIMIZE HARM 7-24

7.7 AGENCY COORDINATION 7-25

7.8 CONCLUSION 7-26

8.0 FINANCIAL ANALYSIS 8-1

8.1 CAPITAL FUNDING STRATEGY 8-2

 8.1.1 Capital Cost Estimate 8-2

 8.1.2 Wiehle Avenue Extension Capital Funding Strategy 8-5

 8.1.3 Full LPA – Capital Funding Strategy 8-8

 8.1.4 Funding Secured to Date 8-11

 8.1.5 Capital Financing Approach 8-11

8.2 OPERATING FUNDING STRATEGY 8-12

 8.2.1 Operating and Maintenance Costs 8-13

 8.2.2 Operating Revenues 8-15

 8.2.3 Passenger Fare Revenues 8-15

 8.2.4 Other System Revenues 8-15

8.3 RISKS AND UNCERTAINTIES 8-17

 8.3.1 Construction Cost and Revenue Risk 8-17

 8.3.2 Operating Cost and Revenue Risk 8-18

 8.3.3 Risk Assessment and Mitigation..... 8-18

9.0 SECONDARY AND CUMULATIVE EFFECTS 9-1

 9.1 GENERAL METHODOLOGY 9-2

 9.1.1 Identify Sensitive Resources and Area of Effect 9-2

 9.1.2 Identify Potential Sources of Effects 9-3

 9.1.3 Identify Potential Effects 9-8

 9.2 RESOURCE IDENTIFICATION 9-8

 9.3 SECONDARY DEVELOPMENT EFFECTS 9-8

 9.3.1 Long-Term Effects 9-9

 9.4 CUMULATIVE EFFECTS 9-12

 9.4.1 Long-Term Effects 9-12

 9.5 MITIGATION 9-16

10.0 EVALUATION OF ALTERNATIVES CARRIED FORWARD 10-1

 10.1 EVALUATION RELATIVE TO PROJECT GOALS AND OBJECTIVES 10-1

 10.1.1 Goals 1 and 2: Improve Transportation Service and Increase Transit
Ridership 10-6

 10.1.2 Goal 3: Support Future Development..... 10-8

 10.1.3 Goal 4: Support Environmental Quality 10-8

 10.1.4 Goal 5: Provide Cost-Effective, Achievable Transportation
Solutions 10-9

 10.1.5 Goal 6: Serve Diverse Populations..... 10-10

 10.2 NEW STARTS CRITERIA 10-11

11.0 PUBLIC COORDINATION AND COMMENTS 11-1

11.1 PUBLIC INVOLVEMENT 11-2

 11.1.1 Public Outreach Activities and Information Exchange 11-2

 11.1.2 Public Coordination Meetings and Public Hearings 11-4

 11.1.3 Continuing Public Outreach Efforts 11-20

11.2 AGENCY COORDINATION 11-20

 11.2.1 Early Agency Coordination and Scoping 11-21

11.3 COMMENTS AND RESPONSES 11-33

 11.3.1 Draft EIS 11-33

 11.3.2 Supplemental Draft EIS..... 11-36

INDEX OF TABLES

CHAPTER 1

1.3-1: Early Corridor Studies and Plans 1-12

1.3-2: Related Studies..... 1-15

1.4-1: Total Weekday Corridor-Related Travel..... 1-34

1.4-2: Total Weekday Corridor-Related Work Travel..... 1-34

1.4-3: Total Weekday Corridor-Related Work Travel by Transit 1-35

1.5-1: Population within the Region and the Dulles Corridor 1-38

1.5-2: Employment within the Region and the Dulles Corridor 1-39

1.6-1: Goals and Objectives..... 1-44

CHAPTER 2

2.1-1: Modes Considered..... 2-3

2.1-2: Alignments Considered (Metrorail Only) 2-3

2.1-3: Station Options Considered..... 2-5

2.1-4: Yard Locations Considered 2-5

2.1-5: Alternatives Considered 2-6

2.4-1: Alternatives Evaluated 2-48

2.4-2: Summary of Effects 2-49

2.4-3: Summary of Proposed Mitigation Measures..... 2-52

CHAPTER 3

3.1-1: Expected Growth in Regional and County Population 3-4

3.1-2: Expected Growth in Regional and County Households 3-5

3.1-3: Expected Growth in Regional Employment and Employment within
Corridor Jurisdictions..... 3-5

3.1-4: Land Use Compatibility 3-16

3.2-1: Neighborhood Characteristics 3-29

3.2-2: Community Facilities and Services in Study Area 3-32

3.2-3: Summary of Long-Term Effects to Neighborhoods and Community
Facilities..... 3-34

3.3-1: Acquisitions and Displacements..... 3-40

3.4-1: Visual Characteristics 3-59

3.4-2: Summary of Long-Term Visual Effects..... 3-60

3.5-1: Archaeological Resources Identified 3-72

3.5-2 Historic Architectural Resources Identified 3-73

3.5-3 Project Effects on Archaeological Resources 3-74

3.5-4 Project Effects on Architectural Resources 3-74

3.6-1 Parklands and Recreation Areas 3-79

3.6-2 Summary of Long-Term Effects on Parklands 3-85

3.7-1 Numbers of Crimes 3-90

3.8-1 Census Blocks That Meet Environmental Justice Thresholds 3-96

3.8-2 Effects to Environmental Justice Communities 3-99

CHAPTER 4

4.1-1: Study Area Soils – Fairfax County..... 4-8

4.1-2: Study Area Soils – Loudoun County 4-9

4.1-3: Summary of Effects to Geologic Resources..... 4-15

4.2-1: Wetland Systems within the Study Area..... 4-31

4.2-2: Effects to Water Resources 4-48

4.2-3: Proposed Wetland Mitigation for the full LPA 4-56

4.3-1: Summary of Aquatic Biota and Habitat within the Dulles Corridor..... 4-61

TABLE OF CONTENTS

4.4-1: Terrestrial Biota and Habitat Summary 4-65

4.6-1: National and Virginia Ambient Air Quality Standards..... 4-75

4.6-2: Intersections Modeled for Air Quality Impacts 4-76

4.6-3: 2003 Monitored Ambient Air Quality in the Region..... 4-81

4.6-4: Maximum Predicted 1-Hour CO Concentrations (in ppm) for No Build Alternative¹ at Modeled Intersections 4-83

4.6-5: Maximum Predicted 8-Hour CO Concentrations (in ppm) for No Build Alternative¹ at Modeled Intersections 4-83

4.6-6: Maximum Predicted 1-Hour CO Concentrations (in ppm) for the LPA¹ at Modeled Intersections..... 4-84

4.6-7: Maximum Predicted 8-Hour CO Concentrations (in ppm) for the LPA¹ at Modeled Intersections..... 4-85

4.7-2: FTA Noise Impacts Summary at Discrete Receptors Under Wiehle Avenue Extension and the Full LPA (dBA) 4-97

4.7-3: Number of FTA Noise Impacts Under the Wiehle Avenue Extension and the Full LPA..... 4-101

4.7-4: WMATA Noise Impact Summary at Discrete Receptors Under Wiehle Avenue Extension and the Full LPA (dBA) 4-101

4.7-5: Number of WMATA Noise Impacts Under the Wiehle Avenue Extension and the Full LPA 4-102

4.7-6: Recommended Location and Dimensions of Aerial Parapets and At-Grade Barriers 4-105

4.8-1: FTA Ground-Borne Vibration Impact Criteria for Annoyance 4-115

4.8-2: WMATA Criteria for Single Event Maximum Vibration and Ground-Borne Noise from Metrorail Operations 4-116

4.9-1: Environmental Sites of Potential Concern 4-127

4.9-2: Sites of Potential Concern Affected by Construction Activities..... 4-131

4.10-1: Direct Energy Consumed..... 4-135

4.10-2: Indirect Construction Energy Consumption for the Full LPA..... 4-136

CHAPTER 5

5.1-1: Summary of Capital Costs (in thousands, 2004 dollars)5-3

5.1-2a: Summary of Funding Sources for the Wiehle Avenue Extension
(in thousands, 2004 dollars)5-4

5.1-2b: Summary of Funding Sources for the full LPA (in thousands, 2004
dollars).....5-5

5.1-3: Capital Costs Representing New Resources (in thousands,
2004 dollars).....5-5

5.1-4: Comparison of RIMS II Multipliers by Region5-6

5.1-5a: Net Effects of Construction Activity Upon Fairfax and Loudoun
Counties5-7

5.1-5b: Net Effects of Construction Activity Upon the Commonwealth of
Virginia5-7

5.1-6a: Net Employment Impacts from Operations and Maintenance
Activities5-9

5.1-6b: Net Earnings Impacts from Operations and Maintenance
Activities (in thousands, 2004 dollars)5-9

5.1-7: Assessed Value of Properties Required for ROW and Associated
Loss of base Tax Revenues (in thousands, 2004 dollars) 5-11

5.1-8: Assessed Value of Properties Required for ROW and Associated
Loss of Special District Tax Revenues (in thousands, 2004 dollars) . 5-11

5.3-1: Potential Increase in Corridor Development by 2025 Compared to the
No Build Alternative..... 5-22

CHAPTER 6

6.1-1: Summary of Primary Transit Services.....6-3

6.1-2: Bus Transit Facilities in the Dulles Corridor6-7

6.1-3: Average Weekday Transit Patronage Forecasts6-9

6.1-4: Forecast Daily Station Boardings in Dulles Corridor.....6-10

6.1-5: Transit Mode Share for Home-Based Work Trips (Trips Attracted to the
Dulles Corridor).....6-11

6.1-6: Transit Mode Share for Home-Based Work Trips (Trips Produced in the
Dulles Corridor).....6-11

6.1-7: Transit Travel Times for Select O/D Pairs in Minutes6-12

TABLE OF CONTENTS

6.1-8: Number of Daily Transit Trips Attracted to Corridor Geographic Areas 6-13

6.1-9: Number of Daily Transit Trips Produced in Corridor Geographic Areas 6-13

6.1-10: Transit Capacity by Alternative in the a.m. Peak Hour 6-14

6.1-11: Peak and Off-Peak Headways in the Dulles Corridor (in minutes) 6-15

6.1-12: A.M. Peak Hour Maximum Loads and Average Loads per Vehicle 6-17

6.1-13: Annual Operations and Maintenance Costs – 2025 (2004 dollars in millions) 6-18

6.1-14: Fleet Requirements – Opening Year..... 6-18

6.2-1: Multilane Highway and Freeway Level of Service Characteristics..... 6-24

6.2-2: Peak-Hour Traffic Volumes and Levels of Service on Selected Highway Links 6-25

6.2-3: Signalized Intersection Level of Service Characteristics 6-26

6.2-4: West Falls Church Station Peak Hour Intersection LOS and Delay in Seconds 6-27

6.2-5: Tysons East Station Peak Hour Intersection LOS and Delay in Seconds 6-28

6.2-6: Tysons Central 123 Station Peak Hour Intersection LOS and Delay in Seconds 6-29

6.2-7: Tysons Central 7 Station Peak Hour Intersection LOS and Delay in Seconds 6-30

6.2-8: Tysons West Station Peak Hour Intersection LOS and Delay in Seconds 6-30

6.2-9: Wiehle Avenue Station Peak Hour Intersection LOS and Delay in Seconds 6-31

6.2-10: Reston Parkway Avenue Station Peak Hour Intersection LOS and Delay in Seconds..... 6-32

6.2-11: Herndon-Monroe Station Peak Hour Intersection LOS and Delay in Seconds 6-33

6.2-12: Route 28 Station Peak Hour Intersection LOS and Delay in Seconds 6-34

6.2-13: Route 606 Station Peak Hour Intersection LOS and Delay in Seconds 6-35

6.2-14: Route 772 Station Peak Hour Intersection LOS and Delay in Seconds 6-35

6.3-1: Park-and-Ride Facilities in the Dulles Corridor..... 6-37

6.3-2: Mode of Access, Dulles Airport and All Major Airports in Region, 1987 to 1998 (thousands of originations) 6-39

6.3-3: Existing and Planned Parking Capacity for the Dulles Corridor Rapid Transit Project 6-39

CHAPTER 7

7.4-1: Summary of Section 4(f) Resource Impacts Associated with the Locally Preferred Alternative 7-21

CHAPTER 8

8.1-1: Capital Cost Estimate and Expenditure Forecast– Wiehle Avenue Extension 8-3

8.1-2: Capital Cost Estimate and Expenditure Forecast – Full LPA 8-4

8.1-3: Sources of Capital Funding – Wiehle Avenue Extension (Millions of YOE Dollars) 8-5

8.1-4: Sources of Capital Funding – Full LPA (Millions of YOE Dollars) 8-9

8.2-1: Compact Member Incremental Subsidy Requirements for the Wiehle Avenue Extension (Millions of YOE Dollars) 8-14

8.2-2: Compact Member Incremental Subsidy Requirements for Full LPA (Millions of YOE Dollars) 8-14

CHAPTER 9

9.1-1: Agencies Contacted for Secondary and Cumulative Effects Analysis 9-2

9.1-2: Other Projects or Actions Included in the Cumulative Effects Analysis 9-7

9.3-1: Secondary Development Effects 9-10

CHAPTER 10

10.1-1: Goals and Objectives..... 10-2

10.1-2: Measures of Effectiveness 10-4

10.2-1: Summary of New Starts Quantitative Measures for the Wiehle Avenue Extension..... 10-12

CHAPTER 11

11.1-1: Stakeholder Meetings During the Draft EIS Comment Period 11-8

11.1-2: Stakeholder Meetings Following the Draft EIS Comment Period 11-9

11.1-3: Stakeholder Meetings During the Supplemental Draft EIS Comment Period 11-11

11.1-4: Stakeholder Meetings Following the Supplemental Draft EIS Comment Period..... 11-12

11.2-1: Agency Attendance at Pre-Scoping and Scoping Meetings 11-23

11.2-2: Agency Coordination Meetings 11-24

11.2-3: Agency Attendance at Supplemental Rail Yard Study Pre-Scoping and Scoping Meetings..... 11-25

11.2-4: Summary of Agency Coordination Meetings 11-27

INDEX OF FIGURES

CHAPTER 1

1.1-1: Dulles Corridor..... 1-3

1.1-2: Locally Preferred Alternative 1-7

1.3-1: Capital Beltway Corridor Interface 1-15

1.3-2: Environmental Review Process and Schedule 1-19

1.4-1: Washington Metropolitan Region and Northern Virginia..... 1-23

1.4-2: Major Activity Centers and Existing Transportation Network 1-25

1.4-3: Regional Metrorail System 1-31

CHAPTER 2

2.4-1: No Build Transit Network within the Dulles Corridor (2025) 2-13

2.4-2: Major Roadways in Baseline Highway Network (2025) 2-19

2.4-3: Wiehle Avenue Extension..... 2-23

2.4-4: Locally Preferred Alternative 2-25

2.4-5: Potential Construction Staging Areas 2-31

2.4-6: Schematics of Alternatives 2-33

2.4-7: Traction Power Substations, Tie Breaker Stations, and Proposed Stormwater Facilities)..... 2-37

2.4-8: Metrorail Operations for LPA (2025)..... 2-41

CHAPTER 3

3.1-1: Proposed Land Use in the Dulles Corridor 3-9

3.2-1a: Study Area Neighborhoods and Community Facilities..... 3-23

3.2-1b: Study Area Neighborhoods and Community Facilities..... 3-25

3.2-1c: Study Area Neighborhoods and Community Facilities..... 3-27

3.4-1: Visual Assessment Units 3-45

3.4-2a: Views Along the Alignment: Orange Line Connection 3-47

3.4-2b: Views Along the Alignment: Tysons Corner 3-49

3.4-2c: Views Along the Alignment: Mid-Corridor 3-51

3.4-2d: Views Along the Alignment: Dulles Airport 3-53

3.4-2e: Views Along the Alignment: Loudoun County 3-55

3.4-3: View Corridors Dulles Airport Terminal and Control Tower 3-57

3.5-1a: Area of Potential Effect and Known Historic Resources..... 3-67

3.5-1b: Area of Potential Effect and Known Historic Resources..... 3-69

3.6-1a: Public Parkland and Recreational Areas 3-81

3.6-1b: Public Parkland and Recreational Areas 3-83

3.8-1: Environmental Justice Communities 3-97

CHAPTER 4

4.1-1: Geology..... 4-5

4.1-2: Soils Potentially Containing Fibrous Asbestos Minerals 4-11

4.1-3: Prime Farmland Loudoun County 4-13

4.2-1: Watershed Boundaries and Streams..... 4-21

TABLE OF CONTENTS

4.2-2a:	Water Resources.....	4-27
4.2-2b:	Water Resources.....	4-29
4.2-3:	Limits of 100-Year FEMA Floodplain within Study Area	4-33
4.2-4:	Chesapeake Bay Preservation Areas (designated by RMAs and RPAs) Fairfax County, VA	4-37
4.2-5:	Coastal Zone Commonwealth of Virginia.....	4-41
4.2-6:	River and Stream Corridor Overlay District Loudoun County, VA.....	4-45
4.2-7:	Potential Wetland Mitigation Banks	4-57
4.5-1:	Diabase Soils.....	4-71
4.6-1:	Roadway Intersections Modeled for Air Quality Analysis	4-79
4.7-1:	Typical A-Weighted Sound Levels	4-89
4.7-2:	FTA Noise Impact Criteria for Transit Projects	4-91
4.7-3:	Community Noise Monitoring Locations Along the Dulles Corridor...	4-95
4.7-4:	Potential FTA Noise Impact Locations	4-99
4.7-5a:	Proposed Sound Barrier/Parapet Locations and Cross-Section	4-107
4.7-5b:	Proposed Sound Barrier/Parapet Locations and Cross-Section	4-109
4.8-1:	Typical Ground-Borne Vibration Levels.....	4-113
4.8-2:	FTA Generalized Ground Surface Vibration Curves	4-119
4.8-3:	Potential FTA/WMATA Vibration & Ground-Borne Noise Impact Locations.....	4-121
4.9-1:	Hazardous Materials Sites of Potential Concern	4-129
 CHAPTER 5		
5.2-1:	Station Locations	5-13
 CHAPTER 6		
6.1-1:	Transit Centers and Park-and-Ride Lots	6-5
 CHAPTER 7		
7.2-1:	Locally Preferred Alternative	7-3
7.3-1a:	Potential 4(f)/6(f) Resources	7-7

7.3-1b: Potential 4(f)/6(f) Resources 7-9

7.4-1: LPA Alignment within Dulles Airport Historic District..... 7-19

CHAPTER 9

9.1-1: Secondary and Cumulative Effects Study Area..... 9-5
